The Circuit Breaker and Recloser Testing Specialist

Analysis and customizing of the calculus in CBAWIN **SEMINAR**

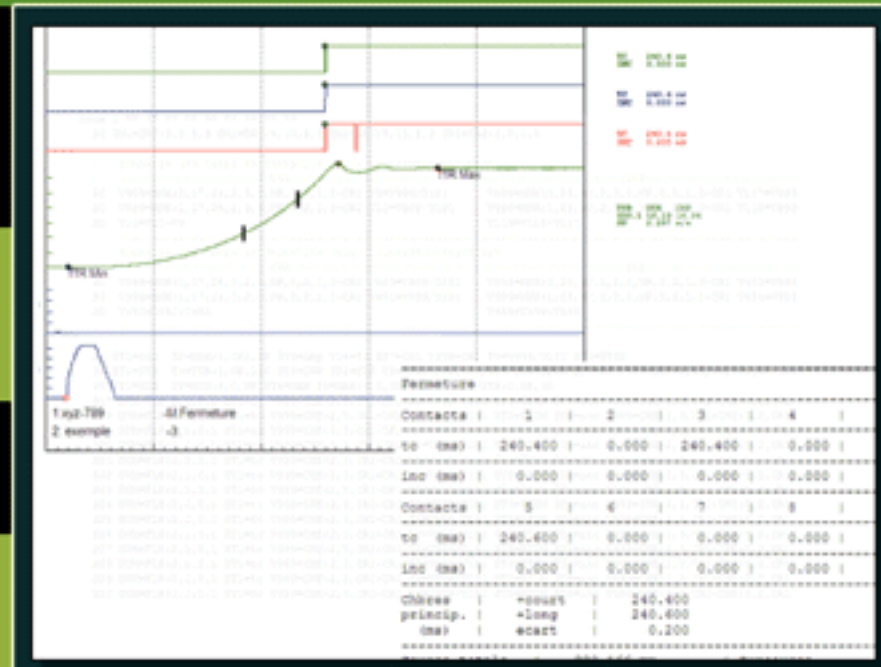

ZENSOL invites you to participate in a two days seminar on the analysis and programming of the calculus of the ZENSOL softwares

Discover the calculus files that process the raw datas to show the results

Simulation showing the effects of the settings of the calculus functions on the obtained results

Analysis of the main calculus functions

Creation of your own calculus files to customize your test results

The afternoon session will be hands on exercises with the use of CBAWIN software
For this reason we ask attendees to bring their laptop to the seminar.

Pre requisite : To be accustomed to the CBAWIN.

CBA Win software

For reservation :
