The Circuit Breaker and Recloser Testing Specialist

Circuit Recloser Timing and Motion **SEMINAR**

Zensol Automation Inc. invites you to participate in a one day seminar on the importance of circuit breaker timing and motion analyzing.

The seminar will touch the following points :

- Presentation of reclosers, testing and measurement per ANSI C37.61-1973 and IEEE std.321-1973 international standards
- GEN-3 Measurement Methods and introduction to GENWIN software

GEN Win software

- Case studies of the following family of Reclosers
 - o Mc Graw Edison Cooper
 - o ESV Westinghouse
 - o Schweitzer SEL- 351 R. or
 - o Other types

Practical exercises on GENWIN and examples

The seminar will be divided in two sessions:

- The morning session will cover the theory involved in circuit breaker timing testing and
- The afternoon session will be hands on exercises with the use of CBAWIN software

For this reason we ask attendees to bring their laptop to the seminar.
